

Mounting instruction

29120 / 29121 Activa Metod Control / Mini

Start with mounting these parts..

Step by step you put the parts on its right place

Mount the attachment for the large grey box about 20 cm below the red locking handle.

Put on the grey box and put the hose that have the cap into the 5L can

Place the spraybox in the spraybox holder and make sure that the hose is free

Put the hose ends from the grey box and the spray box together with the quick couplings

Attach the computer control with the magnet

Take the cable from the computercontrol and plug into the grey box in the connector

Mounting instruction

29120 / 29121 Activa Metod Control / Mini

Secure the plug by tighten the thread

Make sure that the cable is organised and secured

Place the mop frame holder on to the spray box
